

SAFE SCIENCE IS IN SIGHT!

**YOUR VISION IS AN IMPORTANT ASSET!
ARE YOUR EYES PROTECTED WHILE YOU WORK?**

TO Z
LPED
SAFETY

Eye protection is an essential part of your Personal Protective Equipment repertoire! Safety glasses or goggles are required at all times while conducting work in the laboratory setting.

Eye protection should be selected to suit the work being performed and the wearer's needs, but must meet the minimum **ANSI Z87.1** standard requirements as a baseline.
